## **Heavy Duty Camshaft / Flycut Piston Upgrade**

**5.9L 12V-24V & 6.7L 24V  
Upgraded Camshaft &  
Flycut Piston**

**6.0L - 6.4L Upgraded Camshaft &  
Flycut Piston**

These cams are designed to take advantage of the lost opportunities the factories cams didn't seize.

- Smoother Idle.
- Quicker Spool up.
- Lower EGT.
- Better torque and horsepower.
- Better fuel economy.
- New Camshaft. Not a regrind.

Flycut valve reliefs to put piston to valve clearance specifications back to OE standards.  
Great durability upgrade for towing and heavy duty use.
