

## TECHNICAL SERVICE BULLETIN

Part #:	OPG-06212019	Engine:	Cummins
Date:	06/21/2019	Title:	Cummins Oil Pan Gasket

- WE RECOMMEND THE USE OF A HIGH QUALITY SILICONE IN PLACE OF THE OIL PAN GASKET FOR ALL 5.9L, 6.7L, AND 8.3L CUMMINS LONG BLOCKS.
- HIGH QUALITY SILICONE SEALANT IS FAR SUPERIOR TO THE OE PAPER GASKET. USE THE OE CUMMINS SILICONE OR EQUIVALENT.

**WARNING:** EXCESSIVE AMOUNT OF SILICONE CAN END UP IN THE PISTON COOLERS, RESULTING IN PISTON AND CYLINDER WALL DAMAGE.
